Provoked by Venom and Vengeance Because of a Crushing Defeat He Had Suffered

WHAT MR. NORRIS OF NEBRASKA SAYS

Of Speaker Cannon's Hot Speech Last Saturday Night-Why Mr. Norris Voted Against the Burleson Resolution to Declare Speaker's Chair Vacant-Better to Place Party Welfare Above Personal Revenge.

Washington, March 21.—"Speaker Cannon's speech before the Illinois Republican association last Saturday night in which he called the insurgents who voted against the Burleson resolution a lot of 'cowardly members' was but the vaporings of an old man's mind," emphatically declared Representative Norris of Nebraska in the lebby of the house today.

"It represented," he said, "the statements of a senile old man who was filled with venom and vengeance because of a crushing defeat which he had suffered as a result of his tyrany."

We have taken the speaker himself from the rules committee and taken the naming of the other members out of his hands. The members of that committee hereafter will not be under the slightest obligation to the speaker thouse alone for their appointment.

"Also the house can change the rules committee if it does not obey the wishes of the house."

"We Were Not Cowards."

Mr. Norris vigorously denounced the attitude assumed by the speaker toward the "insurgents" since the vote

A Fight for Principles.

"I voted against the Burleson resolu-ion to declare the speaker's chair va-ant," said Mr. Norris, "because it was fight for principle and not one of ersonalities. I did not wish to see the house precipitated into a situation f chaos and disorder from which it robably would not emrge for weeks, to the detriment of important pend-ic legislation.

"Our victory already had been won when we deprived the speaker of his most powerful weapon—the appointment of the rules committee. I had only a moment to think it over and I decided that it was better to place party welfare above personal revenge. We Had Not Spoken for Two Years.

I voted for Cannon for speaker at the beginning of the present congress, not because I was for him. He had insulted and humiliated me and he had taken me from all important committees. We had not spoken for two years. But I voted for him and regardless of these facts, because I did not want him to have opportunity in not want him to have opportunity in future to discriminate against me and declare that he did so because I was "I still think I did right Saturday when I voted to retain Cannon in the chair, and events, I believe, will justify

"It all depends on how the republican majority conducts itself towards the 'insurgents' in the future, as to what our own actions will be," he continued. "When the speaker denounces us as 'cowards' he is but widening the split in the party and making our insurgency more intense. We are not cowards, but we were honest, conscientious men when we voted last Saturday not to dethrone the republican speaker of the house."

"IT'S A LIE." SHOUTS TAWNEY: "It SURE IS," SAYS BURLESON. Would Like to Find the Man Who Started the Report.

Washington, March 21.—The published report to the effect that the Burleson resolution of last Saturday, declaring the speakership of the house vacant, was inspired by a member of the republican majority, was positively denied by both sides today.

Representative Burleson was asked about it. In great wrath he denied the report and demanded to know who was responsible for it. When informed that the report was said to have come from Representative Tawney of Minnesota, Mr. Burleson leaped up and called to Mr. Tawney, who sat a few seats from his across the table. When Tawney reached his side, Mr. Burleson demanded:

Reforming the Rogues Gallery

CASE OF PARISHIONER OF HOLY TRINITY CHURCH.

FIRST STEP BY MAYOR GAYNOR

Had Been Arrested and Measured-Letter to Police Commissioner Baker

New York, March 21.—Mayor Gaynor took his first step today toward reforming the Rogues' gallery. His activities as Judge Gaynor, previous to election, in the case of George B. Duffy, the Brooklyn boy, whom he declared a victim of police persecution, and whose picture he had removed from the gallery, brought him prominently before the public at the time, but since he assumed office other matters have hitherto taken precedence.

Today, however, the subject was brought forcibly back to the mayor's attention.

No Longer Hear of Such Things in Russia.

"It is incredible that such things can exist in a free country," he burst out when informed that an innocent man had been arrested, held over night without permission to communicate with his family, and then lined up the next morning at headquarters with the day's grist of crooks to be photographed and measured. "We no longer hear of such things in Russia," he continued, "a country of which we speak in terms of reproach; but this has gone on so long here that the American people don't seem to care anything about it any more." "It is incredible that such things car it any more.'

After the hearing the mayor sent a letter in part as follows to Commissioner Baker:

"Be so good as to see that his measurements and picture are at once destroyed. The measuring of him and taking of his picture by force was an unlawful battery upon him. Let no such thing be done in future, except in case of persons convicted of some felony or misdemeanor of the nature of a felony. Our supreme court has explicitly decided that it cannot be lawfully done in any other case. I am aware that my distinguished predecessor decided in the Duffy prisoner that the police were not to follow the said decision, but I cannot follow his decision as a precedent. Whatever the law says or any court decides the police must obey."

JEALOUS OF HER SISTER'S WARDROBE Sixteen-Year-Old Ohio Girl Charged

With Murder.

Massillon, Ohio, March 21.—A recital unique in the history of Ohio crime is contained in the charge of murder which the police have laid against Catherine Manz, 16 years old. She is accused of poisoning her sister Elizabeth, three years her senior, with strychnine, and the motive imputed to her is jealousy of her sister's wardrobe, more brilliant than her own.

The body of the elder sister was found in the kitchen of the Manz home Friday night and simultaneously it was discovered that Catherine had fied, taking with her the best of her sister's clothes.

Today the girl was arrested in Akron, where she had applied for work under the name of Ethel Morgan. Brought here to jail she faced her accusers with a calm greatly out of keeping with the gravity of the crime with which she is charged and told them unemotionally that her sister was dead before she left the house.

The most damaging evidence which has been procured against the girl is the admitted fact that she purchased strychnine at a local durg store shortly before her sister's death, and also bought a small quantity of chloroform.

The girl claims that she bought the srtychnine for a man whose name she has so far refused to divulge. This man she declares subsequently handed her two capsules, which she claims she believed to contain quinine. One of these tablets she says she laid on the table beside her sister when she left the house on Friday morning. The chloroform, she says, she bought for cleaning purposes.

CASE OF SOPHIE KRITCHMAN AND JOE MITCHELL

UNDER FIRE ELEVEN HOURS

You Shoot Kulvinskas?"

New Haven, Conn., March 21.—At the close of today's sessions of the trial of Sophie Kritchman and Joe Mitchell, for the killing of Bronslow Kulvinskas, all indications pointed to the fact that the case would go to the jury on Thursday. It was at first expected that the additional witnesses to be called in rebuttal by the state would consume most of the week in giving their testimony, but the cross-examination of Mitchell was finished this afternoon, and the witnesses put on by the state were soon disposed of, their testimony being brief and the cross-examination more so.

Accused Continually Moved About in His Chair.

His Chair.

The cross-examination of Mitchell by the state and Mr. Kennedy, counsel for Sophie, ended at 3.55 this afternoon. Mitchell, who had been subjected to an unceasing fire of questions for eleven and one-half hours, showed the strain he had been under, and during the latter part of his examination was exceedingly nervous. During the day he was continually moving about in his chair and moistening his lips with water which stood in a glass on the railing of the witness box. Twice during the day Mr. Kennedy put the question directly to him if he didn't shoot Kulvinskas on Friday night and on Saturday morning, Mitchell in each case replying that he wasn't in Union City on those days.

Two New Witnesses Called.

At the close of Mitchell's cross-examination his counsel called two new witnesses to the stand, Charles S. Bradley of New Britain, who testified that the key found in Mitchell's possession when arrested and which opened Anton Kulvinskas's trunk, was one of twelve thousand similar ones manufactured by the Corbin company. F.E. Tester of New Haven, a locksmith, said that the lock on Anton's trunk was one of the cheapest made. John Weisman, who had previously testified for the Kritchman defense to having seen Mitchell in front of Kulvinskas' saloon in Union City on the morning of Friday, the 17th, was recalled by Mr. Lynch, who asked him if he wasn't in Hartford that day, but objection was made and he was not allowed to answer. The state then started the rebuttal. Two New Witnesses Called.

Freight Wreck the Indirect Cause. Freight Wreck the Indirect Cause.

A little freight wreck on the Rock Island last night at Shelburg was the indirect cause of the Green Mountain disaster. The Rock Island line was blocked and it became necessary to detour over the Great Western tracks. Two trains sent from Cedar Rapids to Marshalltown were coupled together and the two locomotives placed in front of them. Both locomotives were running backwards.

The combined train consisted of thirteen cars. A Pullman was next to the locomotives. Then came a smoking car and a day coach. In the latter were many women and children.

One Locomotive Jumped Track. The doubled train was going about 25 miles an hour, when it reached a cut five miles from Green Mountain at the top of a hill. In this cut the tender of the front locomotive jumped the tracks. This threw the head locomotive into the sides of the narrow cut.
